THE GLOBAL GOALS
For Sustainable Development

25+5
SDG Cities
Leadership Platform

The Integrated SDG platform for Fast-tracking SDG Implementation the SDGs in Africa
Pilot Program: Antananarivo – Gabarone - Kinshasa

The 1 Stop Solutions Platform

UNGSII (in cooperation with UN HABITAT, UNSDSN, UNICEF, WHO, and other SDG-related Excellence Partners) have shortlisted 25 leading cities and 5 indigenous communities to implement all SDGs by 2025 and prove it's possible.

Leading Cities within the 25+5 that have also defined their first projects include Abu Dhabi/Masdar, Brasov, Mendoza, Noida and Santiago de Chile.

The cities meet with the SDG Champions at the SDG Champions Conference in Klagenfurt, Austria:

2nd SDG Champions Conference, 9th. - 12th. September 2020

The 1 Stop Solutions Platform is the permanent Agora where Citizens, Cities meet with the global experts and investors to exchange their projects, how to improve the concepts and ensure the best partners for finance can be found.

The Integrated Platform for Fast-tracking SDG Implementation in cities

Among all SDGs No. 17 is the keydriver: creating a platform for true exchange linking citizens, cities, experts and investors speeding up the SDG implementation in their city

The platform is built on unique and safe technology based on such as Stellar, Linux and IBM

- Ensuring nobody is left behind
- Making citizen engagement easy
- Matchmaking investment needs for cities
- Assigning value through Property Rights
- Measuring progress and reporting results
- Presenting achievements on a global scale

REFORESTATION: RESTORING THE ENVIRONMENT AND DEVELOPING ECONOMIES

UN HABITAT
FOR A BETTER URBAN FUTURE

25+5 SDG Cities
Leadership Platform

- 46% of all trees have been cut down in the last few hundred years, coinciding with climate change
- Forests are the key to economic development while addressing climate change and could provide 30% of the solution to meet the Paris Accord targets
- The All *SDGs VILLAGE PROGRAM* provides a 360^{o} degree solution marrying environmental and economic development by planting 1 Trillion Trees worldwide using innovation to achieve sustainability
- Includes a financial incentive for those who do the planting increasing the supply of trees worldwide
- Using RFID chips, blockchain and cryptocurrency the tree is harvested for carbon credits with ownership traded on the Stuttgart Stock Exchange

JAPANESE KIRI TREE: FAST GROWING, VALUABLE, CO_2 OFFSET ALL ON BLOCKCHAIN

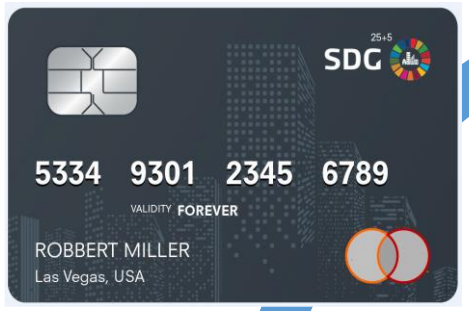
Börse Stuttgart

- The Japanese Kiri Tree or the "Princess Tree" is a fast-growing species that can reach a height of over 30 Meters in 10 years
- The wood is considered valuable and is used in furniture manufacturing and musical instruments
- The tree allows for sunlight to get through making it an ideal solution to provide shade for agriculture, farming and shelter
- Onatti Foundation provides 200 Hectares outside the city of Kinshasa, DRC to plant Kiri Trees allowing for planting 200,000 of these trees
- Each tree planted will be tracked via RFID and photos verifying its existence with a subsequent entry on blockchain with Cryptocurrency
- Each cryptocurrency token will correspond to ownership consisting of 2 value streams: 1) Carbon Credits 2) Wood Harvesting
- The resulting cryptocurrency will trade on the Börse Stuttgart, the 2nd largest exchange in Germany, providing liquidity and fungibility to the SDG 1TT initiative

1 Stop Solution Platform for 1 Trillion Trees

SDG Card

Payment for Individuals & Institution



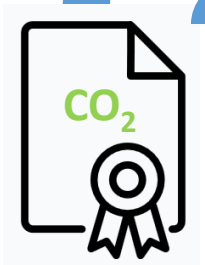
Individuals & Institutions plant trees

School, Hospital, Clubs, Church, …

Trees are chiped to monitor carbon production

Payment for trees & chips

Development and Climate Alliance



Trading carbon credits and pay profit to SDG card

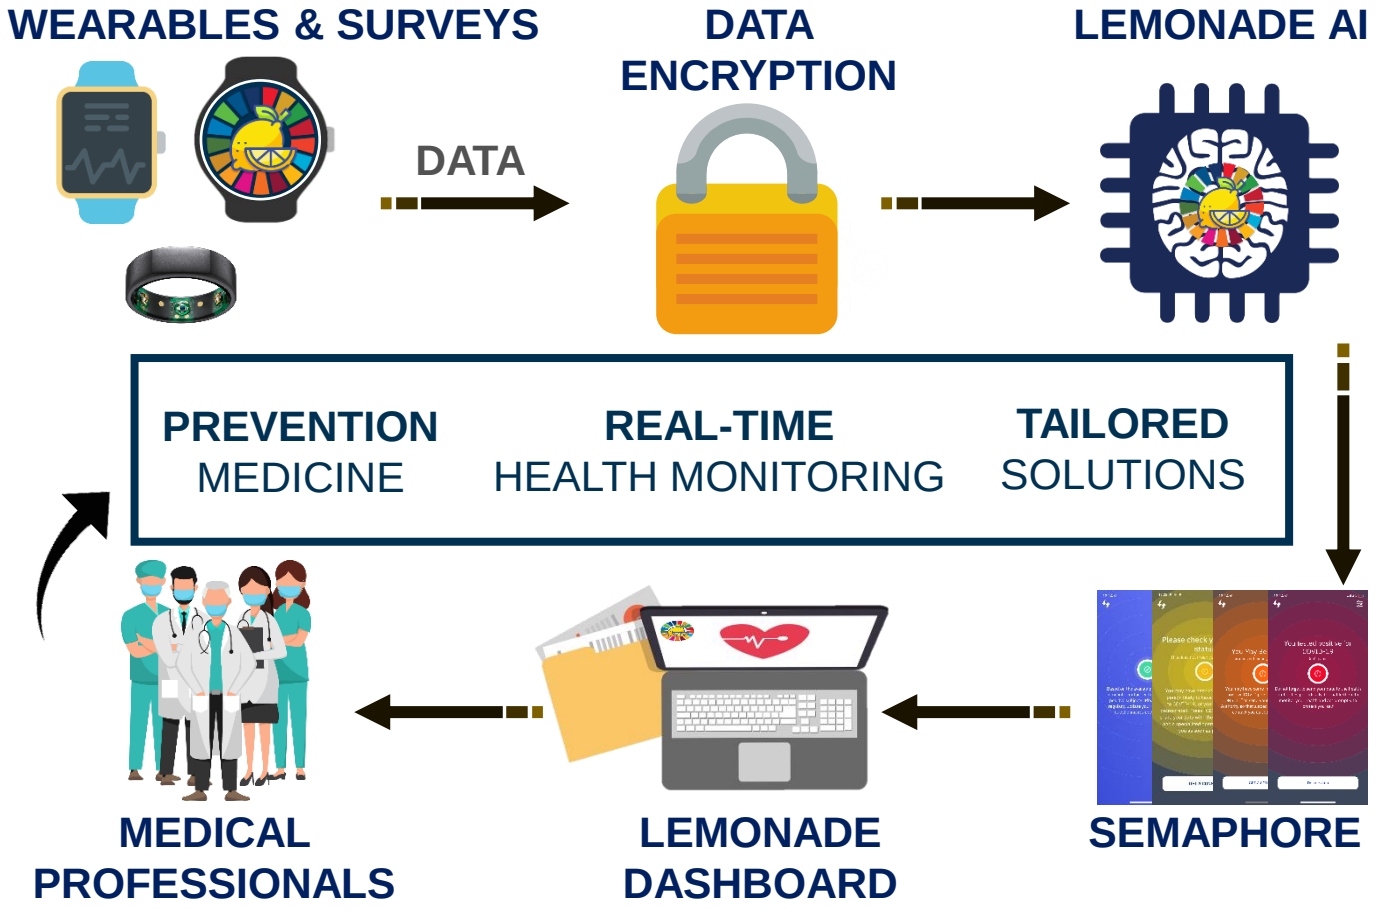
SDG 25+5 Cities Leadership Platform

Ensure healthy lives and promote well-being for all at all ages

LEMONADE.CARE

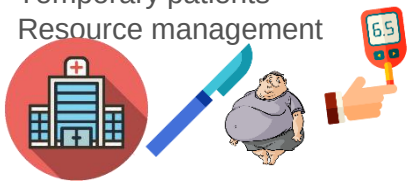
Lemonade is a telemedicine mobile and desktop platform that enhances the mental and physical well-being of patients by enabling preventive and personalized medicine and data-driven treatments thanks to a solution combining the use of AI software and wearable hardware



Healthcare facility centered

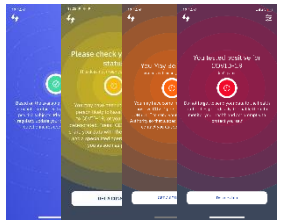
An easy and tailorable solution to manage:

- Chronic – long terms patients
- Temporary patients
- Resource management



The health status semaphore

As the users' status becomes more critical, the system's attention is increased.



Contagion Tracker and Pandemic Semaphore feature

Developed in partnership with Path Check, nonprofit spinout of MIT of Boston. HCA can easily turn on these feature under pandemic crisis.

Massachusetts Institute of Technology

ISS Istituto per la Sicurezza Sociale

Joint venture with HCA of San Marino to create a product perfectly tailored for the needs of the medical community

ISS ISTITUTO PER LA SICUREZZA SOCIALE

25+5 SDG Cities Leadership Platform

Onatti
VILLAGE

MOBILE HOSPITAL – SUSTAINABLE HEALTHCARE

- Sustainable Medicine Clinic for the Onatti Village and surrounding areas
- 93 Bed Capacity staffed with Doctors, Nurses and Aides
- Education component for ongoing training of hospital staff
- Special emphasis on children, women and elderly
- Featuring latest technology innovation in healthcare
- Hypochlorous Acid (HOCl) - Sanitizing, disinfectant, healing agent that kills viruses and bacteria (Ebola, Corona and others) while healing the patient

APPASSIMO

APPASSIO

The online teaching solution
for music and art institutions and individuals.
Designed with love for music and arts
and with care for the quality of the online teaching experience: https://appassimo.com

https://appassio.com is an online platform for music and art education. It allows users to TEACH ONLINE, LEARN ONLINE and share your artistic passion with others.

With APPASSIMO we can provide the institutions with access to some of the best music teachers in the world with the software that is used by some of the leading universities in the world. **We can offer the solution to e.g.:**

Antananarivo:
EGM Madagascar
itraita - Centre d'education musicale

Gaborone:
University of Botswana

Kinshasa:
The National Institute of the Arts

SDG YOUTH ORCHESTRA

AN ORCHESTRA LIKE NO OTHER

- Playing concerts in order to bring awareness of the SDGs (World SDG Concerts)
- Playing concerts to raise money for SDG implementation
- Playing concerts in alternative spaces around the world to inspire young people (young people playing for their peers)
- Playing in regular concert series around the world and spread the vision of the common good
- Selected musicians visiting orphanages and kids hospitals
- Supporting SDG themed conferences with music
- Being an active ambassador of the goals
- Using music to support the medical sector in collaboration with whis.uk
- Organizing music & health festivals

- Concerts in orphanages & senior-citizen homes
- Online sessions and live classes
- Music therapy real & online
- Real or online music experiences for hospitals
- Creating positive ambience in hospitals using arts

www.sdgyo.com

A movement of young, talented musicians around the globe are formed to be SDG Ambassadors and to use their musical skills to inspire and heal.

Artistic leadership: Ingolf Wunder
CEO: Paulina Wunder

Present your projects globally

Die 25+5 SDG Leadership Plattform wurde vom UN General Direktor Michael Moller gemeinsam mit Bürgermeistern auf der UNGSII Konferenz in Heidelberg am 19/20 April 2018 konzipiert und abgestimmt, um für Klagenfurt

- Anhand ausgewählter, von Klagenfurt bestimmter Projekte die Bereitstellung der Finanzen, zusätzlicher Expertise und weltweiter Aufmerksamkeit zu erleichtern.
- Für alle 17 UN Nachhaltigkeitsziele werden pro Jahr 3 Beispíel Projekte bestimmt, um exemplarisch zu zeigen, dass die Umsetzung der SDGs möglich ist. Klagenfurt könnte starten mit
  - Öffentlicher Nahverkehr – Zero-Emission Busse
  - Waste2Energy Projekte
  - Begleitetes Wohnen – Affordable Housing
  - Gesundheitsprojekt: Klagenfurt in Zukunft auf Covid19 noch besser vorbereiten

  Auswahl aus der Projekt-Pipeline
